The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 6 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Ehrenfried.

The method of use of is disclosed by the method of Ehrenfried (see the abstract).

Ehrenfried discloses a method or scoring combat sports by attaching indicating means to one person and then to another in the form of something physical, the physical form comprising hook and loop fastening means.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note the overall device of Muchnick and Clarke.

This application contains claims directed to the following patentably distinct species:

Group I, Claims 1, 2, 6 and 10;

Group II, Claim 3;

Group III, Claim 4,

Group IV, Claim 5;

Group V, Claims 7-9.

Art Unit: 3764

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1 and 2 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

During a phone interview applicant elected the invention of claims 1, 2, 6 and 10 with traverse. Claims 3-5, 7-9 and 11-20 are withdrawn and therefore not examined on the merits of the claims.

Art Unit: 3764

Claims 11-20 are added new claims. Claims 11-15 are directed towards a chest protector and new claims 16-20 are directed towards a head protector.

Newly submitted claims 11-15 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the original claims are method claims

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 11-15 is apparatus species and is withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
